Classic Craftsman lines define this 1911 architectural beauty. Completely renovated, all projects designed by noted architect Stephen Rising, the most recent, a complete renovation.

Magnificent southeastern vistas of Lake Washington, the Cascade Mountain Range, and the city of Seattle. Gracious spaces and extraordinary ambient light. Fine artisanship and style.

Inviting light & airy main level features gorgeous views from every window. Charming entry with built-in bench seating, gas fireplace centerpiece with custom tile surround and oak floors with ribbon inlay. Adjacent to the living room is the converted dining room. On the south side of the house, just off the dining room is the third bedroom or sunroom with full fenestration on three sides.

Stunning cook's kitchen that features new cabinets, counters & farmhouse style sink. The terrace that overlooks the private gardens.

Luxurious owner's suite with vaulted ceilings, French doors to Juliet balcony, and a walk-in closet.
